### DECLARATION OF CONFORMITY

**Registration number:** 009  
**Date of registration:** September 23, 2015  
**Manufacturer (Declarant):** TALS Oy  
**Address:** Satamakatu 2, 00160 Helsinki, Finland  
**Business ID (Y-tunnus):** 2746601-1

**Subject of the Declaration:**  
ASW2 Software

#### Description:

The ASW2 software is designed to perform standard and specialized spectrometric analysis tasks when working with scintillation and semiconductor spectrometers (radiometers).

ASW2 provides simultaneous and independent control of connected analyzers and includes all tools required for applied spectrometry. It allows for measurement and processing of gamma, beta, and alpha radiation spectra, configuration of spectrometric channel parameters, and determination of all necessary metrological characteristics.

The software includes various algorithms for determining radionuclide activity (specific and volumetric activity) in measured samples and objects, including in situ measurements.

#### Basis for Declaration:

This software has undergone an internal technical assessment procedure, including verification of functionality, compatibility, reliability, and information security. It is hereby confirmed that the ASW2 software complies with the declared specifications and the requirements established by regulatory documents applicable to software products of a similar class, including ISO 11929.

#### Rights and Permissions

**Organization name:** TALS Oy

**Address:** Satamakatu 2, 00160 Helsinki, Finland

TALS Oy is the authorized rights holder of the ASW2 software and grants limited usage rights to end users in accordance with the license agreement. All necessary permissions and technical regulations have been observed in compliance with the applicable laws of Finland and the European Union.
